Reasons for allowance

1. This communication is in response to applicant's 09/03/2004 amendment in the application of Yadav et al. for a "Packet processing in a router architecture" filed 06/30/2000. The proposed amendment to the claims and response have been entered and made of record. Claims 2, 3, 11, 13, 14, 19-30 have been cancelled per Applicant's request. Claims 1, 7-10, 12, 16-18 have been amended, and newly claims 31-44 have been added. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.

2. Claims 1, 4-10, 12, 15-18 and 31-44 are allowable as evident by applicant's amendment (Claims are renumbered as 1-27 respectively).

3. The following is an examiner's statement of reasons for allowance: The instant application is deemed to be directed to a no obvious improvement over the prior art of record. The improvement comprises: wherein switch configured to process network packets, including distinguishing between data packets and control packets in the network packets and sending a control packet; a controller, separate from the switch, and operatively connected to the switch, and configured to receive the control packet from the switch and deliver the control packet to a network stack of the control packet as if the control packet came directly from a local interface, the local interface being a virtual interface of the controller that corresponds to a physical interface of the switch, as expressly recited in the claims.
